

## LED driver DC/DC-20W

Article-nr. 308015000

### Technical Illustration

### Description

- 1-channel LED-driver for high-power-LEDs in the range between 1 and 2.5W
- Constant current driver for 1 to 6 LEDs in series
- Dimm-function via PWM control input
- 4 different jumper settings for constant current output in the range between 280mA and 750mA

### Specification

<b>Power Supply:</b>	12V-30V
<b>Output Voltage:</b>	2V-27V
<b>Output Current:</b>	280mA/350mA/560mA/750mA
<b>Output Power:</b>	max. 20W
<b>PWM Input:</b>	5V-30V (activ high, if used without PWM, input has to be connected to power-supply)
<b>Temperature Range:</b>	-20° to +50°
<b>Connectivity:</b>	Wago clips, 5pin
<b>Size:</b>	50 x 50 x 25 mm (excl. terminal-connector)
<b>Protection Class:</b>	IP67 (excl. terminal-connector)
