

LED products for lighting advertising

LED-Chains

high-voltage, available in standard color: white, blue, green, red

- 80/120 single-LED-module per chain
- 27/40 Triple-LED-module per chain

High-voltage-flex-strips

available in standard color: white, blue, green, red
with LED distance
20/30/40/50 mm

Ballasts

available in two power classes:

- 0-300V 7.5W 25mA constant current; for operating max. 80 LEDs (white, blue, green)
- 0-300V 15W 50mA constant current; for operating max. 120 LEDs (red)

Equipment/Accessories

for connection, fixing and mounting of LED-modules

High-Power LEDs

available standard as 4 piece or 6 piece chain

- 2.5W LEDs mounted on heat sink
- easy to mount
- suitable/qualified for outdoor mounting

Ballasts and constant current controllers

for High-power-chains in different power classes

RGB-LED-Modules

available in segment dimensions of 133 mm with 6 multi-color LEDs up to endless rolls of 5400 mm with 240 LEDs

RGB-Controller

different types available

- singular RGB controller with selection of function
- analog or potentiometer input (0-10V)
- Bus-compatible version with master-/slave components
- DMX compatible
